

Get the ACTIV FYI

Why your organization needs a partner like Activ Doctors Online

Keeping morale up while curbing escalating health-related costs is challenging for any organization. Activ Doctors Online (ACTIV) helps you solve each issue and acts as your organization's healthcare advocate – helping to save time, money and in extreme cases - lives.

1. ACTIV is more than just medical records.

Online Personal Health Records (PHR) are just the beginning of our value to you and your workforce. ACTIV's second medical opinions are performed in as fast as 48 hours and performed by some of the world's top specialists. Our Virtual Clinic (not available in all states) allows your workforce or members to visit with a physician via the web, within a moment's notice. Our Discount Drug Program allows uninsured members to save as much as 55% on generic prescriptions.

ACTIV plans can be paid 100% by the employee or member on a voluntary basis. However, many organizations choose to sponsor ACTIV memberships as a low-cost solution to help educate their workforce or members about becoming more intelligent healthcare consumers, helping to lower everyone's healthcare costs.

3. ACTIV helps organizations save PRE-TAX dollars.

Our plans qualify as an eligible medical expense under 125 Cafeteria Plans, FSA, HRA and HSA Plans. We empower your workforce or members while lowering their taxable income.

4. ACTIV memberships are user-friendly and easy to administrate.

Our plans are designed to be easily implemented. Through coordinated enrollments and member support, we make it easy for people to participate.

5. ACTIV helps to attract and retain talent.

An attractive benefit package is a top priority for employees and members of organizations. ACTIV memberships demonstrate your commitment to health and wellness, make your benefit package more attractive and boost morale, simultaneously helping to decrease vour healthcare-related costs.
