

Activ Doctors Online empowers employers and consumers with a complete suite of telemedicine solutions for better health outcomes and lower costs through immediate access to personal health information, eConsultations and expert medical opinions in as fast as 48 hours.

What is PHR Platinum?

Activ Doctors Online is pleased to offer our industry-leading Personal Health Record membership with exclusive features for your patients, available only through ADO-affiliated physicians. This service empowers your patients to be more informed and intelligent healthcare consumers while improving their relationship with you and your practice.

PHR Platinum Includes

- **Personal Health Record:** User-friendly, intelligently designed and encrypted platform provides your patients and their physicians access to their medical records whenever necessary, 24 hours-a-day from anywhere in the world. Your patients control their own PHR and know who entered the data, where it was transferred from and who has viewed it.
- **Medical Records Assistance Program (MRAP):** Authorized by HIPAA release and coordinated through our U.S. Medical Director; ADO contacts any one physician, retrieves medical records and uploads them to the platform into the patient's PHR. Medical records maintenance is included in all PHR memberships up to four times per year for the selected physician. While the member can add an unlimited number of providers and records to his or her PHR through the easy-to-use portal, our Medical Records Assistance program provides an easy way to help new members get their PHR started (MRA is only available in the U.S.).
- **E-Consultation:** Members can visit with their physician by video over the Internet through the use of a webcam on our secure, encrypted platform. Physicians provide patients exclusive access for E-Consultations before, during or after office hours, all at the physician's discretion.

The Activ Doctors Online Advantage

- **Telemedicine Innovator:** Activ Doctors Online is a forward-thinking company, taking telemedicine and PHR to the next level and enabling more intelligent control over health and wellness.
- **Access to Medical Experts:** ADO members gain easy access to the best minds in medicine, through 48-hour Second Medical Opinions, and easy access to their own primary care physicians with e-Consultation.
- **Savings:** ADO enables individuals and employers to save money, time and even lives through an integrated suite of solutions.
- **Security:** Proprietary, exclusive technology built to military security standards, setting a new standard for the industry.
- **Passion:** Sparked by the vision and passion of founder Florent Monsoh, the ADO team firmly believes its telemedicine business model can create a healthier world for people of all walks of life.

Who is it for?

PHR Platinum is designed for any physician with his or her own practice; concierge physicians; or physician groups. You offer the service exclusively to your own patients.

How PHR Platinum benefits your patients
